738 UMR Risk 04-14-15.xlsx

Good Morning:

Attached is an excel file with UMR risk calculation that may be useful for discussion.

Good Afternoon Angela and Nick:

Joe Rotola has asked if we could all get on a phone call to discuss the process by which you used pre-remedial data to determine the rad sites eligibility for a removal. Meaning, the risk calculations developed that were used for the RSE. Lyndsey and I have been tasked to revisit 738 Upper Mountain Road site and determine risk using the PRG calculator. After review of the data, Lyndsey believe she requires further soil analytical data to properly perform the risk calculations. Joe thought contacting you both was a good start prior to us taking any further steps. Please let us know if you are available for the phone call this Thursday at 1:30 PM. Thanks so much for your time.

Below is info for the phone conference. Thanks

1. Dial the toll-free Conference Number - 9-1-844-637-3111
2. Enter your 5-digit Conference Extension - 83450
3. If you are a participant press (2) - Enter the 6-digit Access Code – 123456
